Languages: English, Filipino, Cebuano

SUMMARY

An enthusiastic and detail-oriented developer with a solid foundation in web development and a growing skill set in Flutter and Vue.js. Experienced in building user-friendly interfaces, creating dynamic web applications, and working with APIs to integrate and manage data. Passionate about learning modern technologies and leveraging AI tools to enhance development workflows and solve problems efficiently.

PROJECTS

Seamless Gym Check-ins using QR codes (Laravel)   August 2024 - November 2024

- Co-developed a Laravel-based Gym Management System, primarily handling the frontend UI for QR check-ins and membership management; delivered ahead of schedule with 95% user satisfaction.
- Implemented core features like CRUD, authentication, and session management, reducing data issues by 50% while ensuring data privacy compliance.
- Deployed the system on Laravel Forge and DigitalOcean with enhanced security measures, achieving a 60% improvement in system protection.

Caster Companion for MPL PH S15 (Vue.js)   February 2025 - April 2025

- Developed the frontend development of Caster Companion for MLBB using Vue.js, integrating live match data via the official MLBB API based on provided documentation.
- Built a battles overview page displaying the latest 99 matches, with dynamic navigation to a real-time dashboard showing detailed player stats, team leads, and in-game events.
- Designed interactive visualizations, including a live gold graph and item progression timeline, enhancing the casting experience with real-time, data-driven insights.

Accounting Web Application (Flutter)   January 2025 - June 2025

- Developed a user-friendly accounting web application using Flutter Web, featuring role-based access control, master data management (head, sub, and subsidiary accounts), and dynamic report generation.
- Fetched and organized unstructured financial data via APIs, implementing custom logic to sort and compile it into standard accounting reports, with export options in PDF format.
- Built interactive dashboards, transaction pages, and data visualizations (e.g., graphs for financial reports) to enhance user experience and support informed decision-making.

SKILLS

Languages: PHP, HTML/CSS, Javascript, Java, MySQL
Frameworks: Laravel, Tailwind, Flutter, Vue
Tools: Visual Studio, Visual Studio Code, VirtualBox, Postman
Others: Canva, Capcut, Microsoft Office Applications
Version Controls: Git, Github, BitBucket
Soft Skills: Time Management, Eagerness to Learn, Resilience, Attention to Detail, Problem-Solving, Teamwork, Open-mindedness, Positive attitude

EDUCATION

Cebu Technological University – Danao Campus   2021 - 2025
Bachelor of Science in Information Technology (BSIT) - Cum Laude

- **Relevant Coursework:** DBMS, Web Development, ASP.NET, Software Engineering, Data Structures & Algorithms, Networking 1 & 2, Systems Administration and Maintenance, iOS Mobile Application Development, Information Assurance and Security 1 & 2
